Summary

A seasoned frontend developer with 3 years of expertise in Node.js, JavaScript, HTML, CSS, React, Tailwind CSS, Bootstrap, MongoDB, Firebase, and other technologies. Collaborated closely with a small team to build and launch functional and responsive web applications, contributed to code reviews, bug fixes, and continuous improvement of the codebase. Demonstrated a strong commitment to learning and growth, actively seeking out new challenges. I believe in writing clean code that is not only functional but also maintainable and elegant. My attention to detail extends to consistent indentation, meaningful variable names, and well-organized project structures.

Hard Skills

- JavaScript
- NodeJS
- Mongo Db
- HTML5
- CSS3
- ReactJS
- NextJs
- TypeScript
- Bootstrap
- Tailwind CSS
- Firebase
- Wordpress
